The world's most popular online comic, Penny Arcade (www.penny-arcade.com) comes to life as an episodic videogame where players team up with their favorite comic strip characters on an epic robot-filled adventure battling outrageous enemies.

Penny Arcade Adventures: On the Rain-Slick Precipice of Darkness Episode One combines the best RPG elements with adventure gameplay to create a 100% authentic Penny Arcade experience. Strip creators Mike (Gabe) Krahulik and Jerry (Tycho) Holkins gave birth to the game's characters, world concepts and entire script while expert adventure game designer Ron Gilbert consulted on the project with indie developer Hothead Games.
